

TEXAS PROPANE GAS ASSOCIATION

History & Purpose

TPGA is a non-profit, state trade association that was founded in 1944 for the purpose of placing the marketer and all associate members on a higher plane in the LP gas industry.

TPGA members have the opportunity to meet frequently as district meetings are held in our 16 districts to keep members up to date on issues in the industry. The board of directors meet quarterly. All members are welcome at board meetings.

Our Mission

Promote the success of the propane marketer and encourage the use of propane as a clean energy resource.

Provide a clearinghouse for issues that affect the propane industry and generate a consensus to represent propane marketers before other business, governmental or regulatory bodies.

Create a favorable relationship between producers, manufacturers, fabricators and the retail marketer, and build a public image of the propane marketer as a sage, reliable and competent steward of the industry.

Membership

Our members represent the propane industry in many ways – Retail Marketers who sell propane residentially and/or commercially; Suppliers that include wholesalers, transport companies, equipment merchants and fabricators, insurance and other service providers; Affiliates that include dispenser operators, RV parks, mobile home manufacturers, and master & journeyman plumbers.
