

## What is the Texas Propane Gas Association?

- Founded in 1944, TPGA is an entity created to promote, protect and encourage the growth of the propane gas industry in the state of Texas.
- TPGA is an alliance of propane industry organizations comprised of retail marketers, distribution companies, producers, equipment suppliers, manufacturers, research and development organizations, federal, state and local government organizations, insurance companies, consultants and more.
- TPGA's objective is to serve as the leader and catalyst for creating market strength for the propane gas industry in Texas.

## Why join Texas Propane Gas Association?

- Membership enables you to become involved in the development of standards and policies that ultimately affect the way you do business. TPGA works for ***your best interests*** and lets your voice be heard.
- TPGA membership offers you the opportunity to make a wise ***investment*** that entitles you to participate in a wide range of association activities that can lead to new business contacts, innovative ideas and new business opportunities.
- A guaranteed voice in front of the Texas Railroad Commission.
- TPGA distributes Regulatory Alerts and *Texas Propane* magazine that contain information about legislative issues, industry regulations, rules, important events and news pertinent to your business operations.
- Member discounts for Crash Course and Hazmat training classes.
- The TPGA Trade Show and Annual Convention each offer timely presentations on current business concerns and new business initiatives, continuing education and valuable networking opportunities.
- Discounted rates on emergency response numbers.
- FREE Hazmat Security plan to members.
- Member discounted prices on a wide array of products for marketers and suppliers at Propane Service Corporation, (housed within TPGA),

including decals, safety forms and promotional materials. Contact Larry Minarovic at 800-392-0023 for a catalog or to place an order.

***Membership in the Texas Propane Gas Association assures you that a common goal binds your business and the propane industry: to make the propane gas industry better and brighter.***
